

FLOOD DAMAGE REDUCTION PROJECTS

FLOOD CONTROL

CONDITION OF IMPROVEMENT ON 30 SEPTEMBER 1997

Flood Control Projects are authorized under Section 205 of the 1948 Flood Control Act, as amended and Section 208 of the 1954 Flood Control Act, as amended. Under 205 authority flood damage reduction projects may be constructed including levees, floodwalls, reservoirs for water storage and channel improvements; or non-structural measures such as removal of flood prone facilities from the flood plain or installation of a flood warning system. Under 208 authority flood damage reduction snagging and clearing projects may be constructed including one time removal of snags and trees, channel excavation and improvements, etc. in rivers and waterways.

Under Section 205 the Corps is limited to \$5,000,000 in one problem area and under Section 208 to \$500,000 in one problem area. Work must be completed within itself and capable of solving the problem without additional changes or improvements.

After projects are completed by the Corps they are turned over to the non-Federal sponsor to maintain.
